

Kodera Casting C371A Cut & Strip Machine

Leadmaker
Services

Description

The C371A is an extremely robust cut & strip machine processing for wires and cables up to 11mm diameter and conductor sizes up to 10mm². With its powerful drive system and blade mechanism, it can process many challenging materials including AVSS, VSF, IV, KV, UL, Teflon, Glass Wire, etc.

This model is based on Casting C351 which was the flagship machine supplied by Kodera for many years. It was developed with identical ideas but using new technology. Its processing speed is twice as fast as the Casting C351. The built-in memory allows saving and quick re-loading of programs. A large range of blade forms is available for optimized stripping of different insulations.

Technical Specifications

MODEL CASTING C371A
CUTTING LENGTH 0.1~99,999mm
CUTTING TOLERANCES $\pm(0.1+0.0005\times L)$ mm
L = Indicate a cutting length
STRIPPING LENGTH Front End =0.1~47.9mm
Rear End =0.1~47.9mm
APPLICABLE WIRE SIZE AWG#7~AWG#28 (Depending on the wire type)
Biggest outer diameter : $\phi 11$ mm
APPLICABLE WIRE TYPE AVSS, VSF, IV, KV, UL, Teflon, Glass Wire, etc
WIRE FEED SPEED Variable
BLADE MATERIAL Ultra fine particle alloy
OUTER DIMENSION W430mm×D420mm×H270mm
WEIGHT 27kg
POWER SUPPLY AC100V~AC240V(Single phase) 50/60Hz
POWER CONSUMPTION
(100V) Rated : 50W MAX : 300W
